

**THE ADVISORS' INNER CIRCLE FUND III
(the "Trust")**

**MetLife Small Company Equity Fund
(the "Fund")**

Supplement dated June 18, 2026 to the Fund's Summary Prospectus, Prospectus (the "Prospectus") and Statement of Additional Information ("SAI"), each dated January 28, 2026

This supplement provides new and additional information beyond that contained in the Summary Prospectus, Prospectus and SAI, and should be read in conjunction with the Summary Prospectus, Prospectus and SAI.

The Board of Trustees of the Trust, at the recommendation of MetLife Investment Management, LLC (the "Adviser"), the investment adviser of the Fund, has approved a plan of liquidation providing for the liquidation of the Fund's assets and the distribution of the net proceeds *pro rata* to the Fund's shareholders. In connection therewith, the Fund is closed to investments from new and existing shareholders (including systematic purchases and automatic reinvestments of distributions by existing shareholders) effective immediately. The Fund is expected to cease operations and liquidate on or about August 17, 2026 (the "Liquidation Date"). The Liquidation Date may be changed without notice at the discretion of the Trust's officers.

Prior to the Liquidation Date, shareholders may redeem (sell) their shares in the manner described in the "Purchasing, Selling and Exchanging Fund Shares – How to Sell Your Fund Shares" section of the Prospectus. For those Fund shareholders that do not redeem (sell) their shares prior to the Liquidation Date, the Fund will distribute to each such shareholder, on or promptly after the Liquidation Date, a liquidating cash distribution equal in value to the shareholder's interest in the net assets of the Fund as of the Liquidation Date.

In anticipation of the liquidation of the Fund, the Adviser may manage the Fund in a manner intended to facilitate the Fund's orderly liquidation, such as by holding cash or making investments in other highly liquid assets. As a result, during this time, all or a portion of the Fund may not be invested in a manner consistent with its stated investment strategies, which may prevent the Fund from achieving its investment objective.

The liquidation distribution amount will include any accrued income and capital gains, will be treated as a payment in exchange for shares and will generally be a taxable event for shareholders investing through taxable accounts. You should consult your personal tax advisor concerning your particular tax situation. Shareholders remaining in the Fund on the Liquidation Date will not be charged any transaction fees by the Fund. However, the net asset value of the Fund on the Liquidation Date will reflect costs of liquidating the Fund. Shareholders will receive liquidation proceeds as soon as practicable after the Liquidation Date.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.

THE ADVISORS' INNER CIRCLE FUND III

MetLife Small Company Equity Fund

(Institutional Shares: MSVIX)

(Investor Shares: MSVVX)

SUMMARY PROSPECTUS

January 28, 2026

**INVESTMENT ADVISER:
METLIFE INVESTMENT MANAGEMENT, LLC**

Click here to view the fund's **statutory prospectus** or **statement of additional information**

Before you invest, you may want to review the Fund's complete prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus and other information about the Fund online at <https://investments.metlife.com/mutual-fund-documents>. You can also get this information at no cost by calling (800) 252-4993, by sending an e-mail request to MetLifeFunds@seic.com, or by asking any financial intermediary that offers shares of the Fund. The Fund's prospectus and statement of additional information, both dated January 28, 2026, are incorporated by reference into this summary prospectus and may be obtained, free of charge, at the website, phone number or e-mail address noted above.

Investment Objective

The MetLife Small Company Equity Fund (the “Small Company Equity Fund” or the “Fund”) seeks to provide long-term capital appreciation with less volatility than the U.S. small company market.

Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment)

	Institutional and Investor Shares
Redemption Fee (as a percentage of amount redeemed, if shares redeemed have been held for less than 90 days)	1.00%

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

	Institutional Shares	Investor Shares
Management Fees	0.75%	0.75%
Distribution and/or Service (12b-1) Fees	None	0.25%
Other Expenses	<u>1.49%</u>	<u>2.19%</u>
Shareholder Servicing Fees	0.01%	0.15%
Other Operating Expenses	1.48%	2.04%
Acquired Fund Fees and Expenses (“AFFE”) ¹	0.01%	0.01%
Total Annual Fund Operating Expenses ²	2.25%	3.20%
Less Fee Reductions and/or Expense Reimbursements ³	<u>(1.26)%</u>	<u>(1.96)%</u>
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements	0.99%	1.24%

¹ AFFE are indirect fees and expenses that the Fund incurs from investing in shares of other investment companies, including mutual funds, money market funds and exchange-traded funds.

² The Total Annual Fund Operating Expenses in this fee table, both before and after fee reductions and/or expense reimbursements, do not correlate to the expense ratios in the Fund’s Financial Highlights because the Financial Highlights include only the direct operating expenses incurred by the Fund, and exclude AFFE.

³ MetLife Investment Management, LLC (the “Adviser”) has contractually agreed to waive fees and/or to reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, class specific expenses (e.g., Distribution and/or Service (12b-1) Fees) other than Shareholder Servicing Fees incurred by the

Fund under the Amended and Restated Shareholder Services Plan adopted by the Trust, research expenses relating to the securities that are purchased and sold by the Fund, dividend and interest expenses on securities sold short, acquired fund fees and expenses, other expenditures which are capitalized in accordance with generally accepted accounting principles, and non-routine expenses (collectively, "excluded expenses")) from exceeding 0.98% of the average daily net assets of the Fund's Institutional Shares and Investor Shares until January 31, 2027 (the "contractual expense limit"). In addition, the Adviser may receive from the Fund the difference between the Total Annual Fund Operating Expenses (not including excluded expenses) and the contractual expense limit to recoup all or a portion of its prior fee waivers or expense reimbursements made during the rolling three-year period preceding the date of the recoupment if at any point Total Annual Fund Operating Expenses (not including excluded expenses) are below the contractual expense limit (i) at the time of the fee waiver and/or expense reimbursement and (ii) at the time of the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the "Board") of The Advisors' Inner Circle Fund III (the "Trust"), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on January 31, 2027.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses (including one year of capped expenses in each period) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 Years
Institutional Shares	\$101	\$582	\$1,090	\$2,487
Investor Shares	\$126	\$802	\$1,503	\$3,368

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual fund operating expenses or in the example, affect the Fund's performance. During its most recent fiscal year, the Fund's portfolio turnover rate was 90% of the average value of its portfolio.

Principal Investment Strategies

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of small companies. This investment policy may be changed by the Fund upon 60 days' prior written notice to shareholders.

For purposes of the Fund's 80% policy, equity securities include common stocks and exchange-traded funds ("ETFs") with economic characteristics similar to equity securities. The Fund considers small companies to be those with market capitalizations within the range of the market capitalizations of companies in the Russell 2500 Index at the time of purchase, and ETFs that aim to replicate or produce returns that generally correspond to small company indexes. The market capitalization range of the Russell 2500 Index was approximately \$24 million to \$32.5 billion as of September 30, 2025, and may change over time. At any given time, the Fund may own a diversified group of stocks in several industries.

The Adviser employs a relative value philosophy to identify companies that the Adviser believes have attractive valuations and a high probability for accelerated earnings and cash flow growth compared to their peers. The Adviser evaluates broad themes and market developments that it believes can be exploited through portfolio construction and rigorous fundamental research to identify investments that are best positioned to take advantage of catalysts and trends that may positively change the earnings potential and cash flow growth of a target company. The Adviser believes that earnings and cash flow growth are the principal drivers of investment performance, particularly when accompanied by visible, quantifiable catalysts that have not been fully recognized by the investment community.

Further, the Adviser considers various operational and structural factors within its fundamental assessment of macro, sector and company specific trends. Factors taken into consideration may include (but are not limited to): business model risks that may arise from general economic activity, interest rates, business input costs and changes to industry structure; governance factors such as board composition, share class structure and shareholder voting rights; environmental factors such as resource usage and carbon intensity; social factors such as workplace policies, child labor and human rights; and other qualitative factors that may impede a company's ability to reach stated goals and objectives. The Adviser believes companies that reduce exposure to broad risk factors have the potential to reduce the cost of capital, materially lower operating costs or increase the profitability of a company, which may, in turn, lead to higher investment returns for the Fund.

The Adviser continuously monitors and evaluates investments held by the Fund to discern changes in trends, modify investment outlooks, and adjust valuations accordingly. The Adviser attempts to mitigate excess risk through ownership of what it considers a well-diversified portfolio with broad representation across market industries and sectors. The Adviser seeks to actively encourage management of the Fund's portfolio companies to make incremental positive changes to their business models and risk infrastructure with the goal of producing better investment results. From time to time, the Fund may focus its investments in a particular sector or sectors of the economy. The Adviser will liquidate an investment based on several factors, including asset valuation, changes in prospective attributes, and purchases of alternative investments with potentially higher returns. The Adviser generally will

not immediately sell a stock merely due to market appreciation outside the Fund's target capitalization range if it believes the company has growth potential.

Due to its investment strategy, the Fund may buy and sell securities frequently. This may result in higher transaction costs and more capital gains tax liabilities than a fund with a buy and hold strategy.

The Fund may invest in cash or money market instruments for the purpose of meeting redemption requests or making other anticipated cash payments.

Principal Risks

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below.

Market Risk — The risk that the market value of an investment may move up and down, sometimes rapidly and unpredictably. From time to time, certain investments held by the Fund may have limited marketability and may be difficult to value and sell at favorable times or prices. Markets for securities in which the Fund invests may decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments that may cause broad changes in market value, public perceptions concerning these developments, and adverse investor sentiment or publicity. In addition, extraordinary events outside the control of the Fund, including acts of God (e.g., fire, flood, earthquake, storm, hurricane or other natural disaster), acts of war (e.g., war, invasion, acts of foreign enemies, hostilities, insurrection, or terrorist activities, whether war is declared or not) and global health events, such as epidemics, pandemics and disease, and their related social and economic impacts, may cause significant adverse market conditions and result in losses in value to the Fund's investments. Such events may initially negatively affect a particular industry, sector, country or region and may spread quickly or unpredictably to negatively affect the global economy, as well as the economies of individual countries, the financial performance of individual companies and sectors, and the markets in general in significant and unforeseen ways. Adverse market conditions may be prolonged and may adversely affect the prices and liquidity of the securities and other instruments in which the Fund invests, which in turn could negatively impact the Fund's performance and cause losses on your investment in the Fund.

Equity Market Risk — The risk that stock prices will fall over short or extended periods of time.

Small Companies Risk — Small companies in which the Fund invests may be more vulnerable to adverse business or economic events than larger, more

established companies. In particular, small companies may have limited product lines, markets and financial resources and may depend upon a relatively small management group. Therefore, stocks of small companies may be more volatile than those of larger companies. Stocks of small companies may be traded over-the-counter or listed on an exchange.

Sector Emphasis Risk — The securities of companies in the same business sector, if comprising a significant portion of the Fund's portfolio, may in some circumstances react negatively to market conditions, interest rates and economic, regulatory or financial developments and adversely affect the value of the portfolio to a greater extent than if such securities comprised a lesser portion of the Fund's portfolio or the Fund's portfolio was diversified across a greater number of industry sectors.

Investment Style Risk — Relative value investing focuses on companies with stocks that appear undervalued in light of factors such as the company's earnings, book value, revenues or cash flow. If the Adviser's assessment of market conditions, or a company's value or prospects for exceeding earnings expectations, is wrong, the Fund could suffer losses or produce poor performance relative to other funds.

Investment Strategy Risk — The risk that the Fund's investment strategy may underperform other segments of the small capitalization equity markets or the equity markets as a whole.

Liquidity Risk — The risk that certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on Fund management or performance.

Valuation Risk — The risk that a security may be difficult to value. The Fund may value certain securities at a price higher than the price at which they can be sold.

Exchange-Traded Funds (ETFs) Risk — The risks of owning shares of an ETF generally reflect the risks of owning the underlying securities in which the ETF invests, although lack of liquidity in an ETF could result in its value being more volatile than the underlying portfolio securities. When the Fund invests in an ETF, in addition to directly bearing the expenses associated with its own operations, it will bear a pro rata portion of the ETF's expenses.

Money Market Instruments Risk — The value of money market instruments may be affected by changing interest rates and by changes in the credit ratings of the investments. An investment in a money market fund is not a bank deposit and is not insured or guaranteed by any bank, the FDIC or any other government agency. A money market fund's sponsor has no legal obligation to provide financial support to the fund, and there should be no expectation that the sponsor will provide financial support to the fund at any time. Certain money market funds float their net asset

value while others seek to preserve the value of investments at a stable net asset value (typically, \$1.00 per share). An investment in a money market fund, even an investment in a fund seeking to maintain a stable net asset value per share, is not guaranteed and it is possible for the Fund to lose money by investing in these and other types of money market funds. Under certain circumstances where a money market fund experiences heightened redemptions, it may be required to impose a mandatory liquidity fee on amounts the Fund redeems from the money market fund (i.e., impose a liquidity fee). In addition, a money market fund may impose a liquidity fee of up to 2% on amounts the Fund redeems from the money market fund during circumstances where the money market fund's board of directors determines such fee would be in the money market fund's best interests. These measures may result in an investment loss. Money market funds and the securities they invest in are subject to comprehensive regulations. The regulations governing money market funds were recently amended in July, 2023, and their implementation and interpretation, as well as enforcement, may affect the manner of operation, performance and/or yield of money market funds.

Portfolio Turnover Risk — The Fund may buy and sell securities frequently. Such a strategy often involves higher expenses, including brokerage commissions, and may increase the amount of capital gains (in particular, short term gains) realized by the Fund. Shareholders may pay tax on such capital gains and will indirectly incur additional expenses related to a fund with a higher portfolio turnover rate.

Large Purchase and Redemption Risk — Large purchases or redemptions of the Fund's shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund's portfolio turnover rate and transaction costs to rise, which may negatively affect the Fund's performance and have adverse tax consequences for Fund shareholders.

Performance Information

The bar chart and the performance table below illustrate the risks and volatility of an investment in the Fund by showing changes in the Fund's Institutional Shares performance from year to year and by showing how the Fund's average annual total returns for 1 year, 5 years and since inception compare with those of a broad measure of market performance and a more narrowly based index with characteristics relevant to the Fund's investment strategies. Of course, the Fund's past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Between September 14, 2022 and February 28, 2025, Mesirow Institutional Investment Management, Inc. served as investment adviser to the Fund, and prior to September 14, 2022, Mesirow Financial Investment Management, Inc. served as investment adviser to the Fund.

Updated performance information is available by calling (800) 252-4993 or on the Internet at <https://investments.metlife.com/mutual-fund-documents>.

Average Annual Returns for Periods Ended December 31, 2025

This table compares the Fund’s average annual total returns for the periods ended December 31, 2025 to those of an appropriate broad-based index and a more narrowly based index with characteristics relevant to the Fund’s investment strategies.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown. After-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts (“IRAs”). After tax returns are shown for Institutional Shares only. After tax returns for Investor Shares will vary.

MetLife Small Company Equity Fund	1 Year	5 Years	Since Inception (12/19/2018)
Fund Returns Before Taxes			
Institutional Shares	9.03%	10.99%	11.49%
Investor Shares	8.66%	10.73%	11.36%
Fund Returns After Taxes			
Institutional Shares	(9.16)%	4.69%	6.50%
Fund Returns After Taxes on Distributions and Sale of Fund Shares			
Institutional Shares	15.31%	7.52%	8.17%
Russell 3000 Index (reflects no deduction for fees, expenses or taxes)	17.15%	13.15%	16.55%
Russell 2000 Index (reflects no deduction for fees, expenses or taxes)	12.81%	6.09%	10.54%

Investment Adviser

MetLife Investment Management, LLC

Portfolio Managers

Leo Harmon, CFA, CAIA, Portfolio Manager, has managed the Fund since its inception in 2018.

John Nelson, CFA, Portfolio Manager, has managed the Fund since 2023.

Andrew Hadland, CFA, Portfolio Manager, has managed the Fund since 2023.

Purchase and Sale of Fund Shares

You may generally purchase or redeem shares on any day that the New York Stock Exchange ("NYSE") is open for business.

To purchase Institutional Shares of the Fund for the first time, you must invest at least \$100,000. To purchase Investor Shares of the Fund for the first time, you must invest at least \$5,000. There is no minimum for subsequent investments.

The Fund may accept investments of smaller amounts in its sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at: MetLife Funds P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: MetLife Funds, c/o SS&C Global Investor & Distribution Solutions, Inc., 801 Pennsylvania Avenue, Suite 219009, Kansas City, MO 64105-1307) or telephone at (800) 252-4993.

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

Tax Information

The Fund intends to make distributions that may be taxed as qualified dividend income, ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or individual retirement accounts ("IRAs"), in which case your distribution will be taxed when withdrawn from the tax-deferred account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.
