

# Multi-Sector Fixed Income

March 31, 2022

## Inception Date

October 1, 2006

## Total Strategy Assets<sup>1</sup>

\$349.3 million

## Lead Portfolio Manager

Todd Howard, CFA

## Strategy Vehicles

- Separately Managed Account

## Benchmark<sup>2</sup>

Bloomberg U.S. Aggregate Bond Index

## Typical Targets<sup>3</sup>

Core (Government, Investment Grade & Structured Products)	50 - 75
Emerging Markets (Corporate, Local & Hard Currency Sovereign Debt)	75 - 100
High Yield	10 - 70
International Fixed Income	10 - 40

## OUR STRENGTHS

We seek to construct well diversified portfolios that efficiently allocate capital to maximize risk adjusted returns.

We believe our key competitive strengths are:

**Investment Style** — Portfolio Managers, research analysts and traders work together; focused primarily on security selection within a duration neutral portfolio.

**Size** — Our size helps ensure sufficient diversification at the portfolio level, while being able to source new issue allocations, participate in smaller deals, and remain sufficiently nimble to reposition the portfolio as market opportunities arise.

**Experience** — Our deep credit experience help enable us to navigate various market cycles, looking for any market dislocations and exercising an appropriate discipline.

## PHILOSOPHY AND PROCESS

We believe fixed income markets are efficient with respect to interest rate risk, but regularly misprice securities that are exposed to credit, downgrade and liquidity risks.

We seek to exploit inefficiencies in the market and provide clients with excess returns to the benchmark without incurring undue risk through:

- Conducting proprietary, in-depth fundamental research
- Targeting duration-neutral portfolios
- Constructing portfolios with attractive risk / reward characteristics

## ALPHA DRIVERS

- Focus on global relative value across the credit spectrum
- Generating returns from country, credit, and currency exposure
- Emphasize specific characteristics of an issuer, industry consolidation, downgrades and upgrades, improving fundamentals, and identifiable potential catalysts
- Portfolios are designed to be a diversified allocation of the broad market, and seek to provide excess return to the benchmark through sector level alpha generation
- Portfolios are disaggregated to allow sector-specific oversight by each portfolio management team

1. Stated at estimated fair value (unaudited). Multi-Sector Fixed Income is a strategy of public fixed income assets. Total Strategy Assets for Multi-Sector Fixed Income include all assets managed by MIM in the Multi-Sector Fixed Income strategy and may include certain assets that are not included in Composite Assets (as presented in GIPS® Composite Statistics and Performance table on the following page) for Multi-Sector Fixed Income.

2. Please see the full GIPS® disclosures at the end of this document.

3. Any portfolio targets and/or limits are used to illustrate the Investment Manager's current intentions and may be subject to change without notice. Target Alpha is an investment objective and not a promise of future results or performance. This target is considered gross of fees and over a 3 to 5 year time horizon under normal market conditions. There can be no assurance that a portfolio will achieve its target alpha.

## COMPOSITE PERFORMANCE (%)<sup>1</sup>

	1Q22	1 Year	3 Years	5 Years	7 Years	10 Years	Since Inception
<b>Multi-Sector FI (Gross of fees)</b>	<b>-5.85</b>	<b>-3.55</b>	<b>2.63</b>	<b>3.14</b>	<b>3.34</b>	<b>3.80</b>	<b>5.41</b>
<b>Multi-Sector FI (Net of fees)</b>	<b>-5.89</b>	<b>-3.76</b>	<b>2.28</b>	<b>2.76</b>	<b>2.96</b>	<b>3.41</b>	<b>4.97</b>
Bloomberg U.S. Aggregate Bond Index	-5.93	-4.15	1.69	2.14	1.87	2.24	3.62

## RELATIVE PERFORMANCE (GROSS OF FEES)<sup>2</sup>

- Past performance is not indicative of future results. Net of fee returns reflect the deduction of investment advisory fees and are calculated in the same manner as gross of fee returns. Net of fee returns are calculated using the highest fee rate disclosed in the Form ADV. Fees for separate accounts may be negotiable depending upon asset size and type of account. For additional benchmark disclosure, please see the GIPS® disclosures at the end of this presentation. Tracking error is calculated by subtracting the return of a specified benchmark from the manager's return for each period and then calculating the standard deviation of those differences. Information ratio is the return of the portfolio minus the return of the benchmark divided by tracking error.
- The eVestment Universe ranking is calculated by eVestment using investment performance returns gross of fees and strategy descriptions self-reported by participating investment managers and are not verified or guaranteed by eVestment. eVestment defines each Universe and selects the participating managers for the Universe it determines have similar investment strategies. The Universe ranking uses gross performance as manager fees may vary so that returns will be reduced when advisory fees are deducted. Performance returns for periods greater than one year are annualized. Additional information regarding net performance rankings is available upon request. The reports of the Universe percentile ranks were sourced on April 29, 2022, and represent 93% of the reported eVestment Global Unconstrained Fixed Income Universe as of that date. MIM has not verified and cannot verify the information from outside sources.

## QUARTERLY PERFORMANCE ATTRIBUTION

	High Yield	Global	Emerging Markets	Combined
Allocation	36.3	27.0	36.6	
Benchmark	33.3	33.3	33.3

Security Selection	-0.10	-0.15	1.07	0.82

### Index Returns

Index	Q1	1 Year	Since Inc
Blended	-6.78	-4.90	2.81

## STRATEGY

The portfolio's outperformance primarily came from security selection in Emerging Markets. As the Russia/Ukraine conflict escalated, lack of exposure to Russia sovereigns and Belarus was beneficial, however, exposure to other Eastern European countries hurt relative returns. In local markets, while exposure to Russia detracted, Latin American countries Brazil and Chile outperformed as investors rotated money out of European local and into Latin America amid the war uncertainty. Despite Emerging Market countries being proactive and raising rates last year to curb inflation, this new unexpected inflation impulse on the back of the war and extended supply chain disruptions are forcing some central banks to continue hiking further. Most Latin American central banks are supported as they have ample room to keep increasing interest rates without hurting their post-pandemic recovery. Certain Energy related holdings contributed positively as oil prices surged and Middle Eastern assets performed well, however, exposure to Russian heavily weighed on returns. Otherwise, despite commodity strength, metals & mining and oil & gas were the worst performing sectors during the market volatility. With supply chain issues still at the forefront, Chinese corporates underperformed during the quarter. Security selection in Global and High Yield modestly detracted.

## STRATEGY CHARACTERISTICS<sup>1</sup>

	Yield To Maturity (%)	Effective Duration (years)	Average Credit Quality
<b>Multi-Sector Fixed Income Strategy<sup>1</sup></b>	<b>3.93</b>	<b>6.39</b>	<b>A2 / A</b>
Bloomberg U.S. Aggregate Bond Index	2.91	6.69	Aa2 / AA

## SECTOR POSITIONING<sup>1</sup>

	Market Value (%)	
	Multi-Sector Fixed Income	Bloomberg U.S. Aggregate Bond Index
Agency Municipals	0.26	4.33
High Yield Corporates	14.39	0.02
Investment Grade Corporates	21.39	24.74
RMBS	18.54	27.67
CMBS	4.86	1.98
ABS	4.04	0.32
Non-Dollar	9.79	0.00
Emerging Markets	9.72	1.45
Treasuries / Cash	17.00	39.51

## CREDIT QUALITY DISTRIBUTION (%)<sup>1</sup>

	Multi-Sector Fixed Income	Bloomberg U.S. Aggregate Bond Index
AAA / Cash	42.72	72.20
AA	3.51	2.87
A	9.22	11.01
BBB	22.98	13.57
BB & Below	21.57	0.35

1. The characteristics displayed are for a representative account for this investment strategy. Actual account characteristics may differ. The benchmark data is that of the Bloomberg U.S. Aggregate Bond Index. All data above is provided for illustrative purposes only. This data is supplemental to the information required in a GIPS<sup>®</sup> compliant document. Credit ratings reflect the index provider's credit quality methodology. Average quality excludes cash and securities that are not rated.

Past performance is not indicative of future results. The information presented is only available for institutional client use.

1. The performance benchmark for the Multi-Sector Fixed Income composite is the Bloomberg U.S. Aggregate Bond Index which is a broad based index that measures the investment grade, U.S. dollar denominated, fixed rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed rate and hybrid ARM pass-throughs), ABS, and CMBS. The Aggregate U.S. Bond Index does not reflect all sectors targeted within the Multi-Sector strategy. It is not possible to invest directly in an unmanaged index. All index returns presented are provided to represent the investment environment existing during the time periods shown and will not be covered by the future report of independent verifiers. For comparison purposes, the index is fully invested and includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs.
2. The dispersion of annual returns is measured by the standard deviation among asset-weighted portfolio returns represented in the composite for the full year. "N/A" is an indication that the information is not statistically meaningful due to an insufficient number of portfolios (five or fewer) in the composite for the entire year. Standard deviation is only presented for accounts managed for a full calendar year.
3. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 month period. The standard deviation is not presented for 2006 through 2010 because it is not required for periods prior to 2011. It is also not presented for quarter-ends.
4. Prior to July 1, 2019, the investment team was part of a prior firm. Therefore, "Total Firm Assets (BB)" is left blank for year ends before the team joined MetLife Investment Management.

For purposes of the Global Investment Performance Standards ("GIPS") compliance, the "Firm" is defined as MetLife Investment Management ("MIM"). MIM is MetLife, Inc.'s institutional investment management business. The Firm is defined to include all accounts captured in MetLife's Assets Under Management. On September 15, 2017, MetLife, Inc. ("MetLife") acquired Logan Circle Partners ("LCP") and the Firm was redefined as of July 1, 2019 to include LCP in the MIM assets.

MetLife Investment Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. MetLife Investment Management has been independently verified for periods January 1, 2011 through June 30, 2019. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Multi-Sector Fixed Income composite has had a performance examination for the periods November 1, 2007 through June 30, 2019. The verification and performance examination reports are available upon request.

GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

The creation date of the Multi-Sector Fixed Income ("Multi-Sector") composite is November 1, 2007 and the inception date is October 1, 2006. Prior to July 1, 2019, the performance of the composite represents the performance that occurred while members of the management team were affiliated with prior firms. The composite has been examined for the periods November 1, 2007 to June 30, 2019 while at another firm. The prior firm, LCP, was verified for the periods November 1, 2007 to June 30, 2019. The verification and performance examination reports are available upon request.

The Multi-Sector strategy seeks to outperform the broad fixed income market by investing in U.S. investment grade bonds, U.S. high yield bonds, U.S. structured markets, emerging market debt sovereign and corporate securities and international currency and bonds in both established and emerging markets. Derivatives may make up a part of the Multi-Sector strategy, as the Firm utilizes futures, forwards and interest rate swaps to manage risk, rather than for speculative purposes. The composite includes all fee-paying portfolios managed on a discretionary basis according to the applicable composite strategy except as otherwise excluded herein. The Firm maintains a complete list and description of composites and a list of broad distribution pooled funds which are available upon request. Policies for valuing portfolios, calculating performance and preparing GIPS reports are available upon request.

The performance benchmark for the Multi-Sector composite is the Bloomberg U.S. Aggregate Bond Index which is a broad based index that measures the investment grade, U.S. dollar denominated, fixed rate taxable bond market, including Treasuries, government-related and corporate securities, MBS (agency fixed rate and hybrid ARM pass-throughs), ABS, and CMBS. The Aggregate U.S. Bond Index does not reflect all sectors targeted within the Multi-Sector strategy. It is not possible to invest directly in an unmanaged index. All index returns presented are provided to represent the investment environment existing during the time periods shown and will not be covered by the future report of independent verifiers. For comparison purposes, the index is fully invested and includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs.

Returns are based on fully discretionary accounts under management and may include terminated accounts. The dispersion of annual returns is measured by the standard deviation among asset-weighted portfolio returns represented within the composite for the full year. Dispersion is not calculated for composites with five or fewer accounts for the whole period.

Performance returns are presented gross and net of fees, include the reinvestment of all income and are calculated in U.S. dollars. Dividend income has been recorded net of all applicable foreign withholding taxes. Net of fee returns reflect the deduction of investment management fees and are calculated in the same manner as gross of fee returns. The investment management fee schedule for Multi-Sector strategy is 0.40% on the first \$25 million, 0.35% on amounts from \$25 million to \$100 million and 0.30% on amounts over \$100 million. Net returns have been calculated by reducing the twelfth root of the monthly gross returns by the highest stated ADV fee of the strategy. From inception date to November 2008, the highest stated ADV fee used to calculate monthly net returns was 0.40%. From December 2008 to March 2011 the highest stated ADV fee was 0.65%. From April 2011 to the present the highest stated ADV fee is 0.40%. Investment management fees are described in greater detail in the Firm's Form ADV. Individual client returns will be reduced by investment management fees and other expenses that the account may incur. Fees have a compounding effect on cumulative results. Actual investment management fees incurred by clients may vary.

# Disclaimers

This material is intended for institutional investor, qualified investor and financial professional use only. Not suitable for use with general retail public.

Your capital is at risk. Investing in the strategies discussed herein are subject to various risks which must be considered prior to investing. These risks may include, but are not limited to **Liquidity Risk**, **Interest Rate Risk**, **Credit Risk**, **Prepayment Risk**, and **Counterparty Risk**. For a more complete list please contact your sales representative.

**Risk of loss** An investment in the strategy described herein is speculative and there can be no assurance that the strategy's investment objectives will be achieved. Investors must be prepared to bear the risk of a total loss of their investment.

*This document has been prepared by MetLife Investment Management, LLC (formerly, MetLife Investment Advisors, LLC), a U.S. Securities Exchange Commission-registered investment adviser. MetLife Investment Management, LLC is a subsidiary of MetLife, Inc. and part of MIM.<sup>1</sup> Registration with the SEC does not imply a certain level of skill or that the SEC has endorsed the investment advisor.*

MetLife, Inc. provides investment management services to affiliates and unaffiliated/third party clients through various subsidiaries.<sup>1</sup> MetLife Investment Management ("MIM"), MetLife, Inc.'s institutional investment management business, is responsible for investments in a range of asset sectors, public and privately sourced, including corporate and infrastructure private placement debt, real estate equity, commercial mortgage loans, customized index strategies, structured finance, emerging market debt, and high yield debt. The information contained herein is intended to provide you with an understanding of the depth and breadth of MIM's investment management services and investment management experience. This document has been provided to you solely for informational purposes and does not constitute a recommendation regarding any investments or the provision of any investment advice, or constitute or form part of any advertisement of, offer for sale or subscription of, solicitation or invitation of any offer or recommendation to purchase or subscribe for any securities or investment advisory services. Unless otherwise specified, the information and opinions presented or contained in this document are provided as of the quarter end noted herein. It should be understood that subsequent developments may affect the information contained in this document materially, and MIM shall not have any obligation to update, revise or affirm. It is not MIM's intention to provide, and you may not rely on this document as providing, a complete or comprehensive analysis of MIM's investment portfolio, investment strategies or investment recommendations.

**No money, securities or other consideration is being solicited.** No invitation is made by this document or the information contained herein to enter into, or offer to enter into, any agreement to purchase, acquire, dispose of, subscribe for or underwrite any securities or structured products, and no offer is made of any shares in or debentures of a company for purchase or subscription. Prospective clients are encouraged to seek advice from their legal, tax and financial advisors prior to making any investment.

**Past performance is not indicative of future results.** No representation is being made that any investment will or is likely to achieve profits or losses or that significant losses will be avoided. There can be no assurance that investments similar to those described in this document will be available in the future and no representation is made that future investments managed by MIM will have similar returns to those presented herein. All information has been presented in U.S. dollars. Actual returns may increase or decrease due to currency fluctuations.

**No offer to purchase or sell securities.** This Presentation does not constitute an offer to sell or a solicitation of an offer to buy any security and may not be relied upon in connection with the purchase or sale of any security.

**No reliance, no update and use of information.** You may not rely on this Presentation as the basis upon which to make an investment decision. To the extent that you rely on this Presentation in connection with any investment decision, you do so at your own risk. This Presentation is being provided in summary fashion and does not purport to be complete. The information in the Presentation is as of the date indicated on the cover of this document unless otherwise specified and MIM does not intend to update the information after its distribution, even in the event that the information becomes materially inaccurate. Certain information contained in this Presentation, includes performance and characteristics of MIM's by independent third parties, or have been prepared internally and have not been audited or verified. Use of different methods for preparing, calculating or presenting information may lead to different results for the information presented, compared to publicly quoted information, and such differences may be material.

**No tax, legal or accounting advice.** This Presentation is not intended to provide, and should not be relied upon for, accounting, legal or tax advice or investment recommendations. Any statements of U.S. federal tax consequences contained in this Presentation were not intended to be used and cannot be used to avoid penalties under the U.S. Internal Revenue Code or to promote, market or recommend to another party any tax-related matters addressed herein.

## Forward-Looking Statements:

This document may contain or incorporate by reference information that includes or is based upon forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give expectations or forecasts of future events. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They use words and terms such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will," and other words and terms of similar meaning, or are tied to future periods in connection with a discussion of future performance. Forward-looking statements are based MIM's assumptions and current expectations, which may be inaccurate, and on the current economic environment which may change. These statements are not guarantees of future performance. They involve a number of risks and uncertainties that are difficult to predict. Results could differ materially from those expressed or implied in the forward-looking statements. Risks, uncertainties and other factors that might cause such differences include, but are not limited to: (1) difficult conditions in the global capital markets; (2) changes in general economic conditions, including changes in interest rates or fiscal policies; (3) changes in the investment environment; (4) changed conditions in the securities or real estate markets; and (5) regulatory, tax and political changes. MIM does not undertake any obligation to publicly correct or update any forward-looking statement if it later becomes aware that such statement is not likely to be achieved.
