# Long / Short Credit September 30, 2019

# STRATEGY INFORMATION

Inception Date Portfolio Managers
February 1, 2011 Andrew J. Kronschnabel, CFA
Joshua Lofgren, CFA

#### **Investment Approach**

- Seeks to produce positive total returns in all market environments by employing multiple credit-based investment strategies while minimizing interest rate duration exposure
- Unconstrained, multi-sector credit strategy targeting investment opportunities across the entire spectrum of credit markets and products
- Deep fundamental credit research complemented by active trading within a risk management framework that places a premium on liquidity and downside protection
- Rigorous bottom-up investment process that identifies long/short ideas across the credit markets, agnostic to market direction

### **Key Differentiators**

- · Dedicated solely to the institutional marketplace
- The senior portfolio manager has been involved in the strategy since inception
- Deep fundamental credit research capabilities with sector dedicated credit research analysts

<sup>1.</sup> The characteristics displayed are for a representative account. Actual account characteristics may differ. All data above is provided for illustrative purposes only. The indices presented include the HFRX Fixed Income – Credit Index, HFRX Global Hedge Fund Index, BofA Merrill Lynch US High Yield Constrained Index; Bloomberg Barclays (BB) U.S. Corporate Investment Grade Index; Bloomberg Barclays (BB) U.S. Aggregate Index, the BofA Merrill Lynch Current 10 Year U.S. Treasury Index. The HFRX Global Hedge Fund Index is designed to be representative of the overall composition of the hedge fund universe. The HFRX Fixed Income – Credit Index includes strategies with exposure to credit across a broad continuum of credit sub-strategies, including corporate, sovereign, distressed, convertible, asset backed, Capital Structure Arbitrage, Multi-Strategy and other Relative Value and Event Drive sub-strategies. The Barclays Aggregate Bond Index, which is a broad based index, measures the investment grade, U.S. dollar denominated, fixed rate, taxable bond market. The Bank of America Merrill Lynch US High Yield Constrained Index is an unmanaged portfolio constructed to mirror the high yield debt market. The Barclays US Corporate Index is a broad-based benchmark that measures the investment grade, U.S. dollar-denominated, fixed-rate, taxable corporate bond market. These indices are presented here to demonstrate correlation and beta information and are used for discussion purposes only. The Long / Short Credit strategy does not utilize a benchmark. This information is supplemental to the information required in a GIPS® compliant presentation.

are presented refer to definition and a certain fail to detail information and are used for discussion purposes only. The Long/Short Credit strategy does not utilize a benchmark. This information is supplemental to the information required in a GIPS® compliant presentation.

2. Past performance is not indicative of future results. Performance figures are shown net of fees. Net of fee returns are calculated using the highest fee rate disclosed in the Form ADV. Fees for separate accounts may be negotiable depending upon asset size and type of account. For additional information about fees and performance, please see the GIPS® disclosures at the end of this Presentation. The 10-Year U.S. Treasury yield is used for discussion purposes only. The Long/Short Credit composite does not utilize a benchmark. Due to the use of alternative trade structures (e.g. pairs trading, shorting), a high degree of turnover and concentration, MIM believes that traditional indices share little to no similarity to the strategy and therefore are not appropriate.

## COMPOSITE STATISTICS AND PERFORMANCE

Year	Gross-of-Fee Return	Net-of-Fee Return <sup>1</sup>	Number of Portfolios	Dispersion STDV <sup>2</sup>	Composite 3 Yr STDV <sup>3</sup>		% Total Firm Assets

Past performance is not indicative of future results. Please see the full GIPS® disclosures below.

- 1. Past performance is not indicative of future results. Net of fee returns reflect the deduction of investment advisory fees and are calculated in the same manner as gross of fee returns. Net of fee returns are calculated using the highest fee rate disclosed in the Firm's ADV.
- 2. The dispersion of annual returns is measured by the standard deviation among asset-weighted portfolio returns represented in the composite for the full year. "N/A" is an indication that the information is not statistically meaningful due to an insufficient number of portfolios (five or fewer) in the composite for the entire year. Standard deviation is only presented for accounts managed for a full calendar year.
- 3. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36 month period. The standard deviation is not presented for 2011 through 2013 because the composite had not been in existence for three years. It is also not presented for quarter-ends.

The performance presented is through June 30, 2019 for Logan Circle Partners, L.P. ("Logan Circle" or the "Firm"). The Firm's a registered investment adviser and began managing assets on November 1, 2007. On September 15, 2017, the Firm became a wholly owned subsidiary of MetLife, Inc. and ispart of MetLife Investment Management, MetLife, Inc.'s institutional investment management business. From April 16, 2010 to September 15, 2017, the Firm was a subsidiary of Fortress Investment Group LLC. Additionally, on December 19, 2011, the Firm formed a new subsidiary, Logan Circle Partners I LLC, which is a whollyowned entity of the Firm. The Firm is defined to include all accounts managed by Logan Circle and Logan Circle Partners I LLC. The track record presented represents the team's performance for the Long/Short Credit ("Long/Short Credit") composite from February 1, 2011 ("inception date") to the present that the investment team managed for the Firm. The creationdate of the composite was known as Absolute Return Credit. Effective July 1, 2019 the Firm became part of MetLife Investment Management and performance for future periods will be included as part of the GIPS Firm defined as MetLife Investment Management.

The Firm claims compliance with the Global Investment Performance Standards ("GIPS®") and has prepared and presented this report in compliance with the GIPS® standards. The Firm has been independently verified for the periods November 1, 2007 to December 31, 2017. Verification assesses whether(1) the firm has complied with all the composite construction requirements of the GIPS® standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS® standards. The Long/Short Credit composite has been examined for the periods February 1, 2011 to December 31,2017. The verification and performance examination reports are available upon request. The Firm maintains a complete list and description of composites, policies for valuing portfolios, calculating performance and preparing compliant presentations all of which are available upon request.

The Long/Short Credit composite seeks positive returns regardless of market environment through a credit based, multistrategy best ideas approach, implemented without a benchmark orientation while seeking to minimize interest rate duration exposure. The strategy will invest in investment gradeand below investment grade securities. Derivatives make up a part of the Long/Short Credit strategy as the Firm believes that derivatives offer value to this strategy and the firm may utilize a variety of futures, forwards and swaps for speculative and hedging purposes. The Long/Short Credit strategy may also utilize leverage. The Long/Short Credit composite does not utilize a benchmark. Due to the use of alternative trade structures (e.g. pairs trading, shorting), a high degree of turnover and concentration, Logan Circle believes that traditional indices share little to no similarity to the strategy and therefore are not appropriate. The Long/Short Credit composite includes all feepaying portfolios managed on a discretionary basis according to the applicable composite strategy except as otherwise excluded herein.

Performance returns are based on fully discretionary accounts under management and may include terminated accounts. Returns are presented gross and net of fees, include the reinvestment of all income and are calculated in U.S. dollars. Dividend income has been recorded net of all applicable foreign withholding taxes. Net of fee returns reflect the deduction of investment management fees and are calculated in the same manner as gross of fee returns. The highest stated investment management fee for the Long/Short Credit strategy is 1.25%. From inception to August 31, 2014 the highest stated fee was 1.00%. Net of fee returns have been calculated by reducing the monthly gross returns by the highest stated fee of 1.00% from inception to August 31, 2014 and 1.25% from August 31, 2014 to present. Fees have a compounding effect on cumulative results. Investment management fees are described in greater detail in the Firm's ADV. Actual investment management fees incurred by clients mayvary and returns will be reduced by investment management fees and other expenses that the account may incur.

#### **General Disclosures**

MetLife, Inc. provides investment management services to affiliates and unaffiliated/third party clients through various subsidiaries.¹ MetLife Investment Management ("MIM"), MetLife, Inc.'s institutional investment management business, is responsible for investments in a range of asset sectors, public and privately sourced, including corporate and infrastructure private placement debt, real estate equity, commercial mortgage loans, customized index strategies, structuredfinance, emerging market debt, and high yield debt. The information contained herein is intended to provide you with an understanding of the depth and breadth of MIM's investment management services and investment management experience. This document has been provided to you solely for informational purposes and does not constitute a reommendation regarding any investments or the provision of any investment advice, or constitute or form part of any advertisement of, offer for sale or subscription of, sdicitation or invitation of any offer or recommendation to purchase or subscribe for any securities or investment advisory services. Unless otherwise specified, the information and opinions presented or contained in this document are provided as of the quarter end noted herein. It should be understood that subsequent developments may affect the informationcontained in this document materially, and MIM shall not have any obligation to update, revise or affirm. It is not MIM's intention to provide, and you may not rely on this document as providing, a complete or comprehensive analysis of MIM's investment portfolio, investment strategies or investment recommendations.

No money, securities or other consideration is being solicited. No invitation is made by this document or the information contained herein to enter into, or offer to enter into, any agreement to purchase, acquire, dispose of, subscribe for or underwrite any securities or structured products, and no offer is made of any shares in or debentures of a company for purchase or subscription. Prospective clients are encouraged to seek advice from their legal, tax and financialadvisors prior to making any investment.

Confidentiality. By accepting receipt or reading any portion of this Presentation, you agree that you will treat the Presentation confidentially. This reminder should not be read to limit, in any way, the terms of any confidentiality agreement you or your organization may have in place with MetLife Investment Management. This document and the information contained herein is strictly confidential (and by receiving such information you agree to keep such information confidential) and are being furnished to you solely for your information and may not be used or relied upon by any other party, or for any other purpose, and may not, directly or indirectly, be forwarded, published, reproduced, disseminated or quoted to any other person for any purpose without the prior written consent of MIM. Any forwarding, publication, distribution or reproduction of this document in whole or in part is unauthorized. Any failure to comply with this restriction may constitute a violation of applicable securities laws.

Past performance is not indicative of future results. No representation is being made that any investment will or is likely to achieve profits or losses or that significant losseswill be avoided. There can be no assurance that investments similar to those described in this document will be available in the future and no representation is made that future investments managed by MIM will have similar returns to those presented herein. All information has been presented in U.S. ddlars. Actual returns may increase or decrease due to currency fluctuations.

No offer to purchase or sell securities. This Presentation does not constitute an offer to sell or a solicitation of an offer to buy any security and may not be relied upon in connection with the purchase or sale of any security.

No reliance, no update and use of information. You may not rely on this Presentation as the basis upon which to make an investment decision. To the extent that you rely on this Presentation in connection with any investment decision, you do so at your own risk. This Presentation is being provided in summary fashion and does not purport to be complete. The information in the Presentation is as of the date indicated on the cover of this document unless otherwise specified andMIM does not intend to update the information after its distribution, even in the event that the information becomes materially inaccurate. Certain information contained in this Presentation, includes performance and characteristics of MIMI's by independent third parties, or have been prepared internally and have not been audited or verified. Use of differentmethods for preparing, calculating or presenting information may lead to different results for the information presented, compared to publicly quoted information, and such differences may be material.

Risk of loss. An investment in the strategy described herein is speculative and there can be no assurance that the strategy's investment objectives will be achieved. Investors must be prepared to bear the risk of a total loss of their investment.

**No tax, legal or accounting advice.** This Presentation is not intended to provide, and should not be relied upon for, accounting, legal or tax advice or investment recommendations. Any statements of U.S. federal tax consequences contained in this Presentation were not intended to be usedand cannot be used to avoid penalties under the U.S. Internal Revenue Code or to promote, market or recommend to another party any taxrelated matters addressed herein.

Forward-Looking Statements. This document may contain or incorporate by reference information that includes or is based upon forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give expectations or forecasts of future events. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They use words and terms such as "anticipate," "estimate," "expect," "project," "intend," "plan," "believe," "will," and other words and terms of similar meaning, or are tied to future periods in connection with a discussion of future performance. Forward-looking statements are based MIM's assumptions and current expectations, which may be inaccurate, and on the current economic environment which may change. These statements are not guarantees of future performance. They involve a number of risks and uncertainties that are difficult to predict. Results could differ materially from those expressed or implied in the forward-looking statements. Risks, uncertainties and other factors that might cause such differences include, but are not limited to: (1) difficult conditions in the global capital markets; (2) changes in general economic conditions, including changes in interest rates or fiscal policies; (3) changes in the investment environment; (4) changed conditions in the securities or real estate markets; and (5) regulatory, tax and political changes. MIM does not undertake any obligation to publicly correct or update any forwardlooking statement if it later becomes aware that such statement is not likely to be achieved.

1.
